OFFICIAL IEEE vTOOLS EVENT ACTIVITY REPORT

1. EVENT IDENTIFICATION & METADATA (vTools Core Attributes)

Event Title:	Signal Processing & Embedded DSP Hackathon	**vTools Category:**	Technical Meeting / Activity
Host Unit / Chapter:	IEEE Signal Processing Society Student Branch Chapter	**Meeting Type:**	In-Person (Physical on Campus)
Event Date:	Mon, 2 Nov, 2026	**Time / Timezone:**	09:30 AM - 04:30 PM IST (UTC+05:30)
Venue / Location:	ECE Project Lab	**Primary Focus:**	Signal, Audio, Image Processing & Telecommunications
Admission & Fee:	INR 200 (INR 150 for Members)	**vTools Status:**	COMPLETED & VERIFIED
Organizing Lead:	Anand Kumar	**Reporting Date:**	23/10/2026

2. vTOOLS ATTENDANCE & DEMOGRAPHICS BREAKDOWN

TOTAL REGISTERED	ATTENDEES PRESENT	TURNOUT RATE	IEEE MEMBERS
0	0	0%	0
Roster Entries	Verified at Venue	On Target	0 Non-IEEE Guests

vTools Compliance Note: Venue attendance verified via IEEE SB 2-Factor Pass Code Platform and verified desk register.

3. EXECUTIVE SUMMARY & EVENT NARRATIVE

I. OBJECTIVES & BACKGROUND

The primary objective of "Signal Processing & Embedded DSP Hackathon" was to provide an intensive, high-impact technical development and educational platform for students, researchers, and IEEE members. Organized under the auspices of the IEEE Signal Processing Society Student Branch Chapter, this initiative was designed to foster practical problem-solving capabilities, engineering rigor, and collaborative innovation aligned with IEEE's global mission of advancing technology for humanity.

II. PROCEEDINGS & TECHNICAL HIGHLIGHTS

The event formally convened on Monday, 2 November 2026, held at ECE Project Lab. The program commenced with an inaugural address highlighting emerging technological frontiers, followed by hands-on problem analysis, collaborative technical ideation, and expert-led interactive deliberations. Participants actively engaged throughout the designated sessions, demonstrating technical depth and interdisciplinary collaboration. Attendance validation was ensured via IEEE SB 2-Factor Pass Code Platform and verified desk register.

III. KEY OUTCOMES, IMPACT & POST-EVENT FEEDBACK

With 0 verified attendees out of 0 registrations, the event recorded a turnout rate of 0%. Participants gained substantive insights into industry methodologies, engineering best practices, and technological toolchains. Post-session assessments reflected outstanding participant engagement, reinforcing IEEE SB SNGCE's sustained commitment to excellence in technical outreach and professional community empowerment.

4. PARTICIPANT ATTENDANCE REGISTER (Verified at Venue)

#	PARTICIPANT NAME	AFFILIATION / COLLEGE	PASS CODE	VERIFICATION STATUS

No participants checked in at the time of report generation.

5. PHOTOGRAPHIC EVIDENCE (vTools Documentation)

Official event photographs, banners, and digital collateral are archived in the IEEE SB SNGCE media repository.

Media Accession Record ID: vTools-IMG-SBC64541-SPS-2026

6. OFFICIAL ENDORSEMENTS & VERIFICATION

PREPARED BY
Arya Nair
Secretary, IEEE Signal Processing Society Student Branch Chapter

VERIFIED BY
Anand Kumar
Chair, IEEE Signal Processing Society Student Branch Chapter

APPROVED & ENDORSED BY
Prof. Rajesh K
Faculty Advisor / Counselor, IEEE Signal Processing Society Student Branch Chapter

IEEE STUDENT BRANCH SNGCE · QUALITY ASSURANCE & AUDIT SEAL

This activity report has been compiled and verified by the Student Branch Executive Committee in accordance with IEEE MGA vTools guidelines for official submission to IEEE Region 10 and the IEEE Kerala Section.
